Subject: Temporary Lane Closure on Princess Anne Street at VRE station

Date: October 12, 2010

---

Beginning Thursday, October 14<sup>th</sup> and extending through approximately October 29<sup>th</sup>, the left lane of Princess Anne Street will be closed underneath the CSX Railroad overpass. The lane closure is necessary in order to facilitate the repair of stormwater drainage pipes related to the train station renovation project. All traffic will be diverted underneath the railroad bridge on the right lane.

**Access to the VRE station drop off will be maintained at all times; however, access will be made from the right thru-lane on Princess Anne Street when the lane closure is effect.**

**The concrete lane divider wall at the end of the railroad bridge abutment will be temporarily shifted to allow access to the VRE drop off from the right lane and will be returned to its original position upon completion of the work.**

Motorists are advised to use caution while driving through the work zone and be especially observant of pedestrians walking to and from the train station.

For questions, please contact the Department of Public Works at 372-1023.
